

PROTECTING EMERGENCY RESPONDERS FROM MOVING VEHICLES DURING WILDFIRE RESPONSES

TRAINING PROGRAM GUIDELINES

This program is recommended to be implemented/completed as follows:

- 1** Register for and complete the Responder Safety online training module, "Wildland Fires and Traffic Management"
 - A** Go to RSLN.org and register. THERE IS NO CHARGE.
 - B** Complete the program "Wildland Fires and Traffic Management" <https://tinyurl.com/336tyjdi>
 - C** The Resources tab in the module lists related support materials as part of this training.
- 2** Complete the self-guided PowerPoint presentation "Traffic Incident Management at Wildland Fires," developed for this project, as a review prior to deployment individually or as a group.
- 3** For refresher in the field, reference the tools developed for this project, which are available in the Resources & References section of this report:
 - A** Roadway Incident Cue Card for Wildfire Responses 1:
Implementing a Traffic Incident Management Area at Wildfires
 - B** Roadway Incident Cue Card for Wildfire Responses 2:
Essential Actions for Roadway Incidents or Operational Along Roadways
- 4** At the organizational level, develop and/or review related Standard Operating Guidelines, prior to initiating wildfire-related traffic management practices (refer to the Resources & References section of this report for more information).
